

Part number: 10A8NB-4S-S

9 - 10.6 GHz, Power Combiner, X-Band

For Space communications links supporting low noise region most amenable to application of special low noise antennas, Renaissance has designed a medium power X-band Wilkinson 4-way combiner that is connectorized and robust for severe environmental conditions.

Features and Benefits

- Space qualified
- High power
- Low loss
- High-rel design
- Can be used for both Tx and Rx systems
- High MTBF

Specifications

Frequency	9 - 10.6 GHz
Insertion Loss	1 dB
Isolation	20dB
VSWR	1.35:1
Power	30W CW MAX
Temperature	-55°C to 85°C
Size	2.25" x 1.90" x .56"
